

COVID-19 Notice for patients

Dear Patients,

Following on from recent advice from the British Dental Association, we as a practice have made a tough decision to cease all routine/non-urgent dental care with immediate effect in an attempt to reduce the spread of COVID-19.

All examinations, hygiene appointments and other non-urgent treatment will be cancelled until we are advised otherwise. If you or someone you care for currently has outstanding treatment or has any concerns with regard to their dental treatment, please do not hesitate to get in touch with us. We will also be contacting you in due course to discuss the most appropriate course of action for individual patients.

Despite the above, please be reassured that we will still be running an emergency service. If you feel that you need to be seen urgently due to severe pain, swelling, facial trauma or uncontrolled bleeding please **CALL** the practice. Each call will be triaged accordingly and you will be offered advice or an emergency appointment at the practice if deemed necessary.

If however, you are in isolation or are showing symptoms of COVID-19, we will ask that you DO NOT attend the practice in person – necessary guidance will be given to you over the phone.

As you will be aware, things are currently changing on a daily basis and we will endeavour to keep you updated via our website and facebook page regularly.

Thank you for your continued patience and understanding.

Best wishes

Sandy DentalCare
